

MIPS Reporting

Provide high quality care, secure your incentives, and avoid penalties.

Our dedicated remote staff help you report for MIPS attestation on time.

At DrCatalyst, we are committed to maintaining your compliance in an efficient, timely, and cost-effective manner.

This service can help you:

- ✓ Save time, focus on your patient encounters, and see more patients.
- ✓ Ensure that all the necessary codes are recorded.
- ✓ Streamline your MIPS reporting process.
- ✓ Avoid reporting errors, delays, and penalties.
- ✓ Secure increasing incentives.
- ✓ Successfully report for MIPS compliance every year.
- ✓ Keep track of the progress of your reports.

Achieve consistent and advanced MIPS compliance and stay ahead of the curve.

1 Record the Measures

Our staff access your EHR remotely to record the applicable measures on your behalf. We can help you identify all the key clinical measures and perform thorough documentation to meet MIPS performance categories.

2 Maintain Information Integrity

Our remote staff coordinate with a highly experienced team of attestation experts who monitor and report progress, provide training and real-time assistance, and perform intensive quality control on the reports.

3 Handle Any Specialty

With the guidance of attestation experts, our remote staff are able to handle any kind of compliance documentation regardless of your specialty.

4 Manage Patient Information Securely

Our services are HIPAA compliant. Our remote employees are well-trained in various government-mandated guidelines for health care.

5 Around-the-Clock Availability

Our first-class services and support are available 24/7.

We also offer the following services:
