

Patient Scheduling and Appointment Reminders

Say hello to a worry-free scheduling process.

Let our skilled remote staff take care of your scheduling tasks.

With our high-quality services and first-class customer support, we assure you that scheduling your patients' appointments will be automated and streamlined.

This service can help you:

- ✓ Ensure that appointments are attended to and minimize no-shows.
- ✓ Reduce the time spent on phone calls for appointment scheduling.
- ✓ Keep a healthy and strong correspondence between patient and provider.
- ✓ Do more work with minimal on-site staff and reduce operational costs.
- ✓ Ensure that all appointment fees are settled.

Utilize remote staff and take advantage of our cost-effective front desk solutions.

1 Manage Your Scheduler

We receive calls and access your EHR to do front desk tasks such as scheduling, rescheduling, confirming appointments, and registering new patients.

2 Verify Insurance Eligibility

Before every appointment, we verify that the patient's insurance is active and that the patient is eligible.

3 Schedule Referrals

We not only track and organize referrals, but also schedule the referred patient when the necessary authorizations and documents are acquired.

4 Send Appointment Reminders

To keep patients updated, we contact all the scheduled patients to remind them of upcoming or missed appointments.

5 Settle Appointment Fees

We make sure that the fees for every office visit are settled.
