

Billing Services

Achieve billing efficiency and maximize your revenue.

Our set of billing services streamlines your billing operations without any change to your current staff, process, or technology.

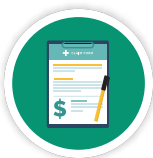

Payment Posting

With impeccable attention to detail, our remote staff record the payments and reimbursements that your clinic receives. Our team sees to it that the complete and exact payment information are posted in your EHR.

AR Management

To help you secure the necessary payments on time, our remote team streamline your accounts receivable management without interrupting your standard workflow.

Claims Service

With our fast and responsive remote services, we generate bulk electronic claims and send them to the applicable payer through your integrated clearinghouse of choice.

Revenue Reports

Our remote staff help you keep an eye on your income by providing accurate, customizable, and timely revenue reports.

Patient Statements

At your convenience, we generate electronic patient statements and collections letters. We aim to provide your patients with a quick, accessible, and fully electronic payment process.
