

## Payment Posting

### Improve your revenue cycle with our remote payment posting service.

We record all the payments and reimbursements that your clinic receives.

With impeccable attention to detail, our remote staff post the complete and exact payment information in your EHR.

#### This service can help you:

- ✔ Streamline your billing process.
- ✔ Keep track of all received payments.
- ✔ Enhance your overall financial performance.
- ✔ Avoid payment posting errors.
- ✔ Generate and manage patient statements more efficiently.
- ✔ Improve the patients' experience with your practice.

Streamline your payment posting process and achieve billing efficiency.

## 1 Post Patient Payments

We carefully record the details of the payments for deductibles and patient responsibility.

## 2 Post EOBs and ERAs

We receive EOBs and ERAs, thoroughly review them, and then post them to the applicable account through your EHR.

## 3 Post Managecare Payments

We also record and manage your Managecare remuneration and other capitation payments.

## 4 Process Write-Offs and Refunds

We check paid and unpaid services, payment inconsistencies, and claim aging; and then we record the necessary refunds or process write-offs.

We also offer the following services:
