

Health Plan Benefits Configuration

Ensure efficient claim processing to deliver excellent healthcare!

Process your claims faster with DrCatalyst.

With our Health Plan Benefits Configuration service, we manage the details of a patient's health plan benefits to provide a smooth and accurate claim processing.

This service can help you:

- ✓ Reduce manual efforts.
- ✓ Increase efficiency.
- ✓ Effectively calculate charges.
- ✓ Minimize claim payment turnaround time.
- ✓ Provide accurate data.
- ✓ Speed up claim processing.
- ✓ Provide quality and patient-centered care.
- ✓ Update necessary details about the health plan benefits and eligible members.

Give your patients the best care while we manage their health plan benefits accurately.

1 Verify the Health Plan Benefits

When a claim is received, we track, verify, and organize the benefits of a patient depending on his or her health plan.

2 Calculate the Copay, Coinsurance, and Deductible

Based on the verified health plan benefits, we automatically calculate the patient's copay, coinsurance, and deductible.

3 Review Charges

We regularly review the calculated charges and assure that the details are correct to avoid errors and inconsistencies.

4 Ensure Information Reliability

We make sure that all information supports the specific claims and accounts management of the health plan.

5 Deliver Accurate Claim Status Reports

We immediately deliver accurate status reports about the claim.

6 Around-the-Clock Availability

Our services and support are available 24/7.

7 Complete Flexibility and Improvement

Our 24-hour service ensures that your patients' concerns are assessed and resolved even when staff are out of the office.

There's more to us than this!
